

ECOrasmus Green Venue Checklist

Name of venue:	
Location/Address:	
Connection to public transport:	

CRITERIA	YES	PARTLY	NO
ENVIRONMENTAL MANAGEMENT			
Is there a sustainability manager/committee?			
Is there a sustainability policy?			
Do they have any green certification?			
Does the staff receive training on environmental and sustainability issues?			
WATER			
Do they measure the water consumption?			
Do they have installments in place to save water? (e.g. dual flush toilets, water-saving devices, water-efficient machines, etc.)			
Do they collect and use rainwater?			
WASHING AND CLEANING			
Do they take measures to reduce the cleaning of towels and sheets? (e.g. only changing on request)			
Do they use cleaning and sanitary products with an eco-label (e.g. detergents, toilet paper, shampoo, etc.)?			
WASTE MANAGEMENT			
Do they separate waste (at least paper, plastic, glass and organic food waste) and ensure it is disposed of in the correct waste management facilities?			
Do they avoid the use of single-use tableware (e.g. cups/glasses, plates and cutlery, straws, etc.) and individually packaged food servings (e.g. butter, honey, jam, etc.)?			
Do they register the total amount of waste?			
Do they have a waste plan to reduce and/or reuse waste (including paper, food, equipment, packaging, etc.)?			
Do they compost organic waste?			

ENERGY			
Do they measure the energy consumption of the establishment?			
Do they use/purchase renewable electricity?			
Do they have energy-saving devices in place (e.g. LED lights, energy-efficient electrical appliances, motion detectors, etc.)?			
FOOD AND DRINKS			
Do they provide food that is organic and/or eco-labelled?			
Do they cooperate with local farmers and/or other local food providers?			
Do they provide seasonal meals and fruits?			
Are imported products like coffee, tea, chocolate, bananas, etc. fair-trade labeled?			
Do they offer vegetarian and vegan food?			
Are there water fountains available?			
GREEN AREA			
Do they refrain from the use of chemical pesticides and fertilizers?			
Do they take initiatives to protect and support the local biodiversity on your premises?			
SOCIAL RESPONSIBILITY			
Do all employees receive at least a living wage?			
Do they ensure a non-discriminatory and fair treatment of staff (in connection with recruitment, general employment, training, promotion)?			
Do they provide access for people with additional needs (staff and guests)?			
Do they support any environmental or social community development activities (e.g. greening activities, supporting local NGOs/schools, environmental and/or educational activities, etc.)?			
GUEST INFORMATION			
Do they inform and involve guests in their environmental work and encourage them to participate in environmental initiatives (e.g. water saving, energy saving, waste saving/recycling, food waste reduction, local biodiversity protection, etc.)?			
Do they inform and encourage guests to use sustainable transportation alternatives?			
Do they promote responsible tourist behaviour in the destination (e.g. informing about codes of conduct for visits to natural areas, information about responsible tour operators, etc.)?
